MARINE

The LEATHERBACK 350cm performance rider:

The Leatherback turtle swims over 10,000 miles a year to reach their nesting grounds. Named after this incredible creature our touring board with its pointed nose, single rear fin and 350cm in length is ideal for longer distance paddling and wave surfing - or for boarders with some experience looking to take riding to the next level. The custom 12cm height of this board ensures stiffness without affecting the riding performance and will allow bigger riders (up to 120kg) to glide through the water with ease.

## mareta | SUP OVERVIEW

Mareta Stand Up Paddleboards (SUP's) were designed and created based on our own personal love for the sport. Inflatable stand up paddle boards are ideal for boating, camping trips, or any general recreational riders with limited transport or storage space. Our dual-flow pump allows you to deflate and inflate each board within minutes and be out on the water paddling.

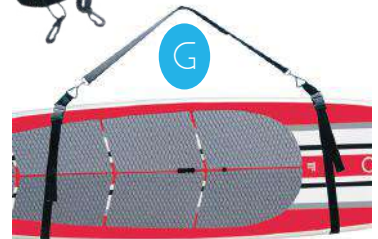

Our light weight product combined with our over the shoulder strap or our easy to carry travel bag ensure flexibility and convenience en-route to and from the water. Our range of boards maintain unrivalled stability and rigidity in the inflatable product category, due to our trademark premium Mareta dual drop stitch design - which you'll see on all our boards.

Our boards are sold as a full all-inclusive package ensuring upon arrival you have all you need to get out on the water. Including listed standard features which our riders & founders have created from years of experience on the water.

UNLIKE OTHER BRANDS, WE'VE CREATED THE IDEAL STANDARD ACCESSORIES PACKAGE SO YOU HAVE WHAT YOU NEED FROM THE MOMENT YOUR MARETA SUP ARRIVES

- A) SUP elite travel bag
- B) Go-pro / Camera mount
- C) Clip on board pack
- D) Waterproof phone case
- E) Carbon reinforced lightweight paddle
- F) Dual action pump
- G) Shoulder board carry strap
- H) Repair Kit
- I) Ankle leash
